## Who and what we are

Construction Isle of Man (CIOM) is a dynamic public-private partnership. Our dedicated directors and executive board members volunteer their time and expertise to help improve the industry.

We're committed to advancing the Isle of Man's construction industry. Join a community where excellence and professionalism are not just ideals but the driving force behind every project.

Elevate your construction career with CIOM and be part of the future of Isle of Man's construction excellence.

## Certification Scheme

---

The CIOM Certification Scheme is a register of individuals who have met specific criteria for their trade.

It focuses on technical qualifications and evidence of completing apprenticeships. The scheme provides a formal recognition of an individual's competence and skill in a particular trade, ensuring they meet industry standards.

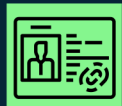

Certification is required for those wishing to:

**WORK ON GOVERNMENT CONTRACTS.**

**WORK ON SITE FOR A CIOM ACCREDITED COMPANY.**

**VERIFY YOUR STATUS REGARDING A WORK PERMIT APPLICATION.**

The register is publicly available via our website and includes the full name, address and unique registration number of each person, and the trade or trades for which the person is registered. This helps build trust with the public by demonstrating a professional level of expertise.

## Accreditation Scheme

---

The CIOM Accreditation Scheme goes beyond individual competence to encompass the entire business. It recognises companies that consistently meet high standards in various aspects of their operations, from health and safety practices to work quality.

Accreditation signifies that a company operates with integrity, professionalism, and adheres to industry best practices. Being accredited showcases a business's commitment to excellence, boosting its reputation, and providing clients and the public with the assurance of quality service.

Accreditation is required for those wishing to:

**WORK ON GOVERNMENT CONTRACTS.**

**SHOW A COMMITMENT TO HIGH QUALITY WORK, SAFETY AND SERVICE STANDARDS.**

**KEEP UP TO DATE WITH THE LATEST INDUSTRY NEWS AND BEST PRACTICE.**

Accredited professionals are listed on our website, including contact details and the category for which they are accredited.

## Key differences

---

### Certification Scheme

**Purpose:** Recognises individuals with specific trade skills through technical qualifications.

**Focus:** Emphasises individual competence in specific trades.

**Requirements:** Completion of apprenticeship or technical qualifications, and professional indemnity insurance for advisory services.

### Accreditation Scheme

**Purpose:** Recognises construction companies meeting high industry standards.

**Focus:** Evaluates overall performance, practices, and industry adherence.

**Requirements:** Adherence to industry standards, maintaining insurance for construction-related risks.

In summary, the Certification Scheme validates individual trade skills, while the Accreditation Scheme recognises companies meeting industry excellence standards.

Both contribute to elevating the Island's construction sector, but Accreditation Scheme members undergo more comprehensive evaluation.
